Surrounding Area

Village of Carey, OH Incentives and Business Information/Statistics

The Village of Carey has a Community Reinvestment Area (CRA) program, which can offer real property tax incentives on commercial development. The program can abate the increased real property tax liability created as a result of the development (i.e. current property tax for the land would not be abated), and the maximum agreement can be up to 100% abatement for 15 years.

A CRA agreement would need to be finalized with the Village of Carey PRIOR to any construction taking place.
